

Extract from "Industrial Trends - February 1992"

Industrial development sluggish

There was still no sign of a turnaround in industrial production in the European Community (EUR 12) in November 1991, nor was there much difference in the trends recorded by the individual branches of industry. The EUR 12 production index, adjusted for the number of working days, is currently estimated at 123.7 (1985=100) for November, representing an annual increase of 0.4 % over November 1990. After seasonal adjustment, the estimated index for November 1991 is 114.6, as against 114.3 in October. The seasonally-adjusted EUR 12 production index for September, October and November fell by 0.2 % from the cumulative figure for the summer months of June, July and August, and the growth rates recorded for the individual types of goods were as follows: intermediate goods industry +0.1 %, investment goods industry -1.2 %, consumer goods industry +0.3 %. **There is therefore still no end to the stagnation in industrial production.**

Growth in industrial production in the USA has remained stable at 0.5 % (quarter-on-quarter growth rate), and industrial production in Japan is also showing signs of stagnation (corresponding growth rate of 0.0 %).

When each Member State's seasonally-adjusted production index of all industry for the last three months is compared with that for the preceding three months, different rates of change do emerge at national level, but here too the general trend is towards stagnation. The rates of change are as follows, with figures for the investment goods industry in brackets: Ireland 5.0 % (6.0 %), France 0.5 % (-0.4 %), Spain 0.1 % (0.4 %). United Kingdom -0.4 % (-0.9 %), Italy

0.7 % (-2.8 %), Germany -0.8 % (-1.1 %), Denmark -1.0 % (-0.7 %), Netherlands -2.6 % (-2.2 %).

Figures are not yet available for December 1991, but by estimating these data (and, where necessary, also the November data) for the individual countries, annual figures can be produced for the growth rate in industrial production (NACE 1-4) in 1991 compared with 1990. These are as follows: EUR 12 -0.1 %, USA -2.0 %, Japan +2.5 %, Ireland +3.3 %, Germany +3.2 %, Netherlands +2.5 %, Denmark +2.1 %, France +0.4 %, Spain -1.0 %, Italy -1.6 %, United Kingdom -3.0 %.

Manuscript completed on = 13.02.1992
