## COMMISSION IMPLEMENTING REGULATION (EU) 2022/812

of 19 May 2022

**approving amendments to the specification for a Protected Designation of Origin or a Protected Geographical Indication ('dell'Emilia/Emilia' (PGI))**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 <sup>(1)</sup>, and in particular Article 99 thereof,

Whereas:

- (1) The Commission has examined the application for the approval of amendments to the specification for the Protected Geographical Indication 'dell'Emilia/Emilia', forwarded by Italy in accordance with Article 105 of Regulation (EU) No 1308/2013.
- (2) The Commission has published the application for the approval of the amendments to the specification in the *Official Journal of the European Union* <sup>(2)</sup>, as required by Article 97(3) of Regulation (EU) No 1308/2013.
- (3) No statement of objection has been received by the Commission under Article 98 of Regulation (EU) No 1308/2013.
- (4) The amendments to the specification should therefore be approved in accordance with Article 99 of Regulation (EU) No 1308/2013.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Committee for the Common Organisation of the Agricultural Markets,

HAS ADOPTED THIS REGULATION:

*Article 1*

The amendments to the specification published in the *Official Journal of the European Union* regarding the name 'dell'Emilia/Emilia' (PGI) are hereby approved.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

<sup>(1)</sup> OJ L 347, 20.12.2013, p. 671.

<sup>(2)</sup> OJ C 501, 13.12.2021, p. 36.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

**COMMISSION REGULATION (EU) 2022/813****of 20 May 2022****establishing a fisheries closure for Bluefin tuna in specific archipelagos for artisanal vessels flying the flag of Portugal**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Union control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 <sup>(1)</sup>, and in particular Article 36(2) thereof,

Whereas:

- (1) Council Regulation (EU) 2022/109 <sup>(2)</sup> lays down quotas for 2022.
- (2) According to the information received by the Commission, catches of the stock of Bluefin tuna in specific archipelagos by artisanal vessels flying the flag of or registered in Portugal have exhausted the quota allocated for 2022.
- (3) It is therefore necessary to prohibit certain fishing activities for that stock,

HAS ADOPTED THIS REGULATION:

*Article 1***Quota exhaustion**

The fishing quota allocated for 2022 to Portugal for the stock of Bluefin tuna in specific archipelagos referred to in the Annex shall be deemed to be exhausted from the date set out in that Annex.

*Article 2***Prohibitions**

Fishing activities for the stock referred to in Article 1 by artisanal vessels flying the flag of or registered in Portugal shall be prohibited from the date set out in the Annex. In particular it shall be prohibited to retain on board, relocate, tranship or land fish from that stock caught by those vessels after that date.

*Article 3***Entry into force**

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

<sup>(1)</sup> OJ L 343, 22.12.2009, p. 1.

<sup>(2)</sup> Council Regulation (EU) 2022/109 of 27 January 2022 fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and for Union fishing vessels in certain non-Union waters (OJ L 21, 31.1.2022, p. 1).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 May 2022.

**COMMISSION IMPLEMENTING REGULATION (EU) 2022/814****of 20 May 2022****amending Implementing Regulation (EU) No 540/2011 as regards the extension of the approval period of the active substance heptamaloxyloglucan****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC <sup>(1)</sup>, and in particular Article 17, first paragraph, thereof,

Whereas:

- (1) Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011 <sup>(2)</sup> sets out the active substances deemed to have been approved under Regulation (EC) No 1107/2009.
- (2) Commission Implementing Regulation (EU) 2021/745 <sup>(3)</sup> extended the approval period of the active substance heptamaloxyloglucan until 31 May 2022.
- (3) Application for the renewal of the approval of that active substance was submitted in accordance with Commission Implementing Regulation (EU) No 844/2012 <sup>(4)</sup>. Although Commission Implementing Regulation (EU) No 844/2012 was repealed by Commission Implementing Regulation (EU) 2020/1740 <sup>(5)</sup>, the provisions concerning the renewal of the approval of those active substances, laid down in Implementing Regulation (EU) No 844/2012, continue to apply in accordance with Article 17 of Implementing Regulation (EU) 2020/1740.
- (4) Due to the fact that the assessment of the active substance heptamaloxyloglucan has been delayed for reasons beyond the control of the applicant, the approval of that active substance is likely to expire before a decision has been taken on its renewal. It is therefore necessary to extend its approval period to provide the time necessary to complete the assessment.

<sup>(1)</sup> OJ L 309, 24.11.2009, p. 1.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 540/2011 of 25 May 2011 implementing Regulation (EC) No 1107/2009 of the European Parliament and of the Council as regards the list of approved active substances (OJ L 153, 11.6.2011, p. 1).

<sup>(3)</sup> Commission Implementing Regulation (EU) 2021/745 of 6 May 2021 amending Implementing Regulation (EU) No 540/2011 as regards the extension of the approval periods of the active substances aluminium ammonium sulphate, aluminium silicate, beflubutamid, bentiavalicarb, bifenazate, boscalid, calcium carbonate, captan, carbon dioxide, cymoxanil, dimethomorph, ethephon, extract from tea tree, famoxadone, fat distillation residues, fatty acids C7 to C20, flumioxazine, fluoxastrobin, flurochloridone, folpet, formetanate, gibberellic acid, gibberellins, heptamaloxyloglucan, hydrolysed proteins, iron sulphate, metazachlor, metribuzin, milbemectin, Paecilomyces lilacinus strain 251, phenmedipham, phosmet, pirimiphos-methyl, plant oils/rape seed oil, potassium hydrogen carbonate, propamocarb, prothioconazole, quartz sand, fish oil, repellents by smell of animal or plant origin/sheep fat, S-metolachlor, Straight Chain Lepidopteran Pheromones, tebuconazole and urea (OJ L 160, 7.5.2021, p. 89).

<sup>(4)</sup> Commission Implementing Regulation (EU) No 844/2012 of 18 September 2012 setting out the provisions necessary for the implementation of the renewal procedure for active substances, as provided for in Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market (OJ L 252, 19.9.2012, p. 26).

<sup>(5)</sup> Commission Implementing Regulation (EU) 2020/1740 of 20 November 2020 setting out the provisions necessary for the implementation of the renewal procedure for active substances, as provided for in Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and repealing Commission Implementing Regulation (EU) No 844/2012 (OJ L 392, 23.11.2020, p. 20).

- (5) As regards cases where the Commission is to adopt a Regulation providing that the approval of the active substance referred to in the Annex to this Regulation is not renewed because the approval criteria are not satisfied, the Commission is to set the expiry date at the same date as before this Regulation or at the date of the entry into force of the Regulation providing that the approval of the active substance is not renewed, whichever date is later. As regards cases where the Commission is to adopt a Regulation providing for the renewal of the active substance referred to in the Annex to this Regulation, the Commission will endeavour to set, as appropriate under the circumstances, the earliest possible application date.
- (6) Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.
- (7) Given the urgency of the matter in the light of the near expiry of the current approval on 31 May 2022, this Regulation should enter into force as soon as possible.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

The Annex to Implementing Regulation (EU) No 540/2011 is amended in accordance with the Annex to this Regulation.

*Article 2*

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 May 2022.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1210/2003 of 7 July 2003 concerning certain specific restrictions on economic and financial relations with Iraq and repealing Regulation (EC) No 2465/96 <sup>(1)</sup>, and in particular Article 11(b) thereof,

Whereas:

- (1) Annex IV to Regulation (EC) No 1210/2003 lists natural and legal persons, bodies or entities associated with the regime of former President Saddam Hussein covered by the freezing of funds and economic resources and by a prohibition to make funds or economic resources available.
- (2) On 19 May 2022, the Sanctions Committee of the United Nations Security Council decided to remove one natural person and two entities from the list of persons and entities to whom the assets freeze should apply.
- (3) Annex IV to Regulation (EC) No 1210/2003 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annex IV to Regulation (EC) No 1210/2003 is amended as set out in the Annex to this Regulation.

*Article 2*This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

## COUNCIL DECISION (EU) 2022/816

of 23 May 2022

### appointing an alternate member, proposed by the Italian Republic, of the Committee of the Regions

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 305 thereof,

Having regard to Council Decision (EU) 2019/852 of 21 May 2019 determining the composition of the Committee of the Regions <sup>(1)</sup>,

Having regard to the proposal of the Italian Government,

Whereas:

- (1) Pursuant to Article 300(3) of the Treaty, the Committee of the Regions is to consist of representatives of regional and local bodies who either hold a regional or local authority electoral mandate or are politically accountable to an elected assembly.
- (2) On 10 December 2019, the Council adopted Decision (EU) 2019/2157 <sup>(2)</sup>, appointing the members and alternate members of the Committee of the Regions for the period from 26 January 2020 to 25 January 2025.
- (3) An alternate member's seat on the Committee of the Regions has become vacant following the end of the national mandate on the basis of which Ms Daniela BALLICO was proposed for appointment.
- (4) The Italian Government has proposed Ms Luisa PIACENTINI, representative of a local body who holds a local authority electoral mandate, *Consigliere comunale del Comune di Marano Equo (RM)* (Member of the Local Assembly of Marano Equo (RM)), as an alternate member of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025,

HAS ADOPTED THIS DECISION:

#### Article 1

Ms Luisa PIACENTINI, representative of a local body who holds an electoral mandate, *Consigliere comunale del Comune di Marano Equo (RM)* (Member of the Local Assembly of Marano Equo (RM)), is hereby appointed as an alternate member of the Committee of the Regions for the remainder of the current term of office, which runs until 25 January 2025.

**COMMISSION IMPLEMENTING DECISION (EU) 2022/817****of 20 May 2022****amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States***(notified under document C(2022)3437)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') <sup>(1)</sup>, and in particular Article 259(1), point (c), thereof,

Whereas:

- (1) Highly pathogenic avian influenza (HPAI) is an infectious viral disease in birds and may have a severe impact on the profitability of poultry farming causing disturbance to trade within the Union and exports to third countries. HPAI viruses can infect migratory birds, which can then spread these viruses over long distances during their autumn and spring migrations. Therefore, the presence of HPAI viruses in wild birds poses a continuous threat for the direct and indirect introduction of these viruses into holdings where poultry or captive birds are kept. In the event of an outbreak of HPAI, there is a risk that the disease agent may spread to other holdings where poultry or captive birds are kept.
- (2) Regulation (EU) 2016/429 establishes a new legislative framework for the prevention and control of diseases that are transmissible to animals or humans. HPAI falls within the definition of a listed disease in that Regulation, and it is subject to the disease prevention and control rules laid down therein. In addition, Commission Delegated Regulation (EU) 2020/687 <sup>(2)</sup> supplements Regulation (EU) 2016/429 as regards the rules for the prevention and control of certain listed diseases, including disease control measures for HPAI.
- (3) Commission Implementing Decision (EU) 2021/641 <sup>(3)</sup> has been adopted within the framework of Regulation (EU) 2016/429 and it lays down disease control measures in relation to outbreaks of HPAI.
- (4) More particularly, Implementing Decision (EU) 2021/641 provides that the protection, surveillance and further restricted zones established by the Member States following outbreaks of HPAI, in accordance with Delegated Regulation (EU) 2020/687, are to comprise at least the areas listed as protection, surveillance and further restricted zones in the Annex to that Implementing Decision.
- (5) The Annex to Implementing Decision (EU) 2021/641 was recently amended by Commission Implementing Decision (EU) 2022/745 <sup>(4)</sup> following outbreaks of HPAI in poultry or captive birds in Bulgaria, France, Hungary, the Netherlands and Poland that needed to be reflected in that Annex.

<sup>(1)</sup> OJ L 84, 31.3.2016, p. 1.

<sup>(2)</sup> Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64).

<sup>(3)</sup> Commission Implementing Decision (EU) 2021/641 of 16 April 2021 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L 134, 20.4.2021, p. 166).

<sup>(4)</sup> Commission Implementing Decision (EU) 2022/745 of 11 May 2022 amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States (OJ L 137, 16.5.2022, p. 84).

- (6) Since the date of adoption of Implementing Decision (EU) 2022/745, Germany, France and Hungary have notified the Commission of further outbreaks of HPAI in establishments where poultry or captive birds were kept, located within or outside the areas listed in the Annex to that Implementing Decision.
- (7) The competent authorities of Germany, France and Hungary have taken the necessary disease control measures required in accordance with Delegated Regulation (EU) 2020/687, including the establishment of protection and surveillance zones around those outbreaks.
- (8) The Commission has examined the disease control measures taken by Germany, France and Hungary in collaboration with those Member States and it is satisfied that the boundaries of the protection and surveillance zones in Germany, France and Hungary, established by the competent authorities of those Member States, are at a sufficient distance from the establishments where the outbreaks of HPAI have been confirmed.
- (9) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Germany, France and Hungary, the protection and surveillance zones established by those Member States in accordance with Delegated Regulation (EU) 2020/687.
- (10) Therefore, the areas listed for Germany, France and Hungary in the Annex to Implementing Decision (EU) 2021/641 should be amended.
- (11) Accordingly, the Annex to Implementing Decision (EU) 2021/641 should be amended to update regionalisation at Union level to take account of the protection and surveillance zones duly established by Germany, France and Hungary in accordance with Delegated Regulation (EU) 2020/687, and the duration of the measures applicable therein.
- (12) Implementing Decision (EU) 2021/641 should therefore be amended accordingly.
- (13) Given the urgency of the epidemiological situation in the Union as regards the spread of HPAI, it is important that the amendments to be made to Implementing Decision (EU) 2021/641 by this Decision take effect as soon as possible.
- (14) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

*Article 1*

The Annex to Implementing Decision (EU) 2021/641 is replaced by the text set out in the Annex to this Decision.

*Article 2*

This Decision is addressed to the Member States.

**COMMISSION IMPLEMENTING DECISION (EU) 2022/818****of 24 May 2022****on the clearance of the accounts of the paying agencies of the United Kingdom concerning expenditure financed by the European Agricultural Fund for Rural Development (EAFRD) for financial year 2021***(notified under document C(2022) 3305)***(Only the English text is authentic)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 <sup>(1)</sup>, and in particular Article 51 thereof, in conjunction with Articles 131 and 138 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community,

After consulting the Committee on the Agricultural Funds,

Whereas:

- (1) Pursuant to Article 51 of Regulation (EU) No 1306/2013, the Commission, on the basis of the annual accounts submitted by the United Kingdom, accompanied by the information required for the clearance of accounts and an audit opinion regarding the completeness, accuracy and veracity of the accounts and the reports established by the certification bodies, has to clear the accounts of the paying agencies referred to in Article 7 of that Regulation prior to 31 May of the year following the budget year in question.
- (2) In accordance with Article 39 of Regulation (EU) No 1306/2013, the agricultural financial year begins on 16 October of year N-1 and ends on 15 October of year N. When clearing the accounts for financial year 2021, for the purpose of aligning the reference period for the European Agricultural Fund for Rural Development (EAFRD) expenditure with that of the European Agricultural Guarantee Fund (EAGF), account should be taken of expenditure incurred by the United Kingdom between 16 October 2020 and 15 October 2021, as provided for in Article 11(1) of Commission Implementing Regulation (EU) No 908/2014 <sup>(2)</sup>.
- (3) Article 33(2), second subparagraph, of Implementing Regulation (EU) No 908/2014 provides that the amounts that are recoverable from, or payable to, the United Kingdom, in accordance with the accounts clearance decision referred to in Article 33(1) of that Regulation, are to be established by deducting the intermediate payments for the financial year concerned from the expenditure recognised for that year in accordance with Article 33(1). The Commission is to deduct that amount from or add it to the next intermediate payment.
- (4) The Commission has checked the information submitted by the United Kingdom and has communicated the results of its checks to the United Kingdom, together with the amendments it proposes.
- (5) For the paying agencies of the United Kingdom, 'Department of Agriculture, Environment and Rural Affairs', 'The Scottish Government Rural Payments and Inspections Directorate', 'Welsh Government' and 'Rural Payments Agency', the annual accounts and the accompanying documents permit the Commission to take a decision on the completeness, accuracy and veracity of the annual accounts submitted.

<sup>(1)</sup> OJ L 347, 20.12.2013, p. 549.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 908/2014 of 6 August 2014 laying down rules for the application of Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, rules on checks, securities and transparency (OJ L 255, 28.8.2014, p. 59).

- (6) Article 36(3), first subparagraph, point (b), of Regulation (EU) No 1306/2013 provides that intermediate payments are to be made without overrun of the total programmed EAFRD contribution. Pursuant to Article 23(2) of Implementing Regulation (EU) No 908/2014, where the combined total of declarations of expenditure exceeds the total programmed contribution for a rural development programme, the amount to be paid has to be capped at the programmed amount, without prejudice to the ceiling provided for in Article 34(2) of Regulation (EU) No 1306/2013. The capped amount will be subject to a later reimbursement by the Commission following the adoption of the amended financial plan or at the closure of the programming period.
- (7) In accordance with Article 75(1), fourth subparagraph, of Regulation (EU) No 1306/2013, the rules on payment deadlines for measures under rural development in the context of the integrated administration and control system apply from claim year 2019. The reductions for non-compliance with the latest payment deadlines, calculated in conformity with Article 5a of Commission Delegated Regulation (EU) No 907/2014 <sup>(3)</sup>, follow the procedure laid down in Articles 40 and 41 of Regulation (EU) No 1306/2013 and are to be taken into account in this Decision for financial year 2021. These reductions may be examined, where appropriate, under conformity clearance proceedings pursuant to Article 52 of Regulation (EU) No 1306/2013.
- (8) Pursuant to Article 54(2) of Regulation (EU) No 1306/2013, 50 % of the financial consequences of non-recovery of irregularities should be borne by the United Kingdom, if recovery has not taken place within 4 years from the date of the recovery request, or within 8 years where the recovery is taken before the national courts. Article 54(4) of Regulation (EU) No 1306/2013 requires the United Kingdom to attach to the annual accounts that it has to submit to the Commission, pursuant to Article 29 of Implementing Regulation (EU) No 908/2014, a certified table reflecting the amounts to be borne by the United Kingdom under Article 54(2) of Regulation (EU) No 1306/2013. Rules on the application of the United Kingdom's obligation to report the amounts to be recovered are laid down in Implementing Regulation (EU) No 908/2014. Annex II to Implementing Regulation (EU) No 908/2014 sets out the model of the table that the United Kingdom has to use to provide information about amounts to be recovered. On the basis of the tables completed by the United Kingdom, the Commission should decide on the financial consequences of non-recovery of irregularities older than 4 or 8 years respectively.
- (9) Pursuant to Article 54(3) of Regulation (EU) No 1306/2013, on duly justified grounds, the United Kingdom may decide not to pursue recovery. Such a decision may be taken only if the costs already, and likely to be, incurred total more than the amount to be recovered, or if the recovery proves impossible owing to the insolvency recorded and recognised under national law, of the debtor or the persons legally responsible for the irregularity. If the decision has been taken within 4 years from the date of recovery request, or within 8 years where the recovery is taken before the national courts, 100 % of the financial consequences of the non-recovery should be borne by the Union budget. The amounts for which the United Kingdom decided not to pursue recovery and the grounds for its decision are shown in the summary report referred to in Article 54(4) of that Regulation in conjunction with Article 102(1), first subparagraph, point(c)(iv), of that Regulation. Therefore, such amounts should not be charged to the United Kingdom and are consequently to be borne by the Union budget.
- (10) This Decision should also take into account the amounts that are still to be charged to the United Kingdom as a result of the application of Article 54(2) of Regulation (EU) No 1306/2013 in relation to the 2007-2013 programming period for the EAFRD.
- (11) In accordance with Article 51 of Regulation (EU) No 1306/2013, this Decision should be without prejudice to the decisions the Commission may take subsequently to exclude from Union financing expenditure not effected in accordance with Union rules,

<sup>(3)</sup> Commission Delegated Regulation (EU) No 907/2014 of 11 March 2014 supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, securities and use of euro (OJ L 255, 28.8.2014, p. 18).

HAS ADOPTED THIS DECISION:

*Article 1*

The accounts of the paying agencies of the United Kingdom, 'Department of Agriculture, Environment and Rural Affairs', 'The Scottish Government Rural Payments and Inspections Directorate', 'Welsh Government' and 'Rural Payments Agency' are hereby cleared as regards expenditure financed by the European Agricultural Fund for Rural Development (EAFRD) in respect of financial year 2021 and relating to the 2014-2020 programming period.

The amounts recoverable from, or payable to the United Kingdom under each rural development programme pursuant to this Decision, are set out in Annex I.

*Article 2*

The amounts to be charged to the United Kingdom, as a result of the application of Article 54(2) of Regulation (EU) No 1306/2013 relating to the 2014-2020 programming period and to the 2007-2013 programming period for the EAFRD, are set out in Annex II to this Decision.

*Article 3*

The reductions for non-compliance with the latest payment deadlines in accordance with Article 75(1) of Regulation (EU) No 1306/2013 under each rural development programme are set out in Annex III to this Decision.

*Article 4*

This Decision is without prejudice to future conformity clearance decisions that the Commission may take pursuant to Article 52 of Regulation (EU) No 1306/2013 to exclude from Union financing expenditure not effected in accordance with Union rules.

*Article 5*

This Decision is addressed to the United Kingdom of Great Britain and Northern Ireland.

Done at Brussels, 24 May 2022.

**COMMISSION IMPLEMENTING DECISION (EU) 2022/819****of 24 May 2022****on the clearance of the accounts of the paying agencies of the United Kingdom concerning debts arising from expenditure financed by the European Agricultural Guarantee Fund (EAGF) under the multiannual financial framework for the years 2014-2020 and previous financial perspectives for financial year 2021***(notified under document C(2022) 3306)***(Only the English text is authentic)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 <sup>(1)</sup>, and in particular Article 51 thereof, in conjunction with Articles 131 and 138 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community ('Withdrawal Agreement'),

After consulting the Committee on the Agricultural Funds,

Whereas:

- (1) Pursuant to Article 51 of Regulation (EU) No 1306/2013, the Commission, on the basis of the annual accounts submitted by the United Kingdom, accompanied by the information required for the clearance of accounts and an audit opinion regarding the completeness, accuracy and veracity of the accounts and the reports established by the certification bodies, has to clear the accounts of the paying agencies referred to in Article 7 of that Regulation prior to 31 May of the year following the budget year in question.
- (2) Pursuant to Article 138(1) of the Withdrawal Agreement, the United Kingdom has an obligation to continue to ensure the functioning of the management and control system for recognition, registration and recovery of debts arising from expenditure financed by EAGF under the multiannual financial framework for the years 2014-2020 or previous financial perspectives, in accordance with Article 54, Article 58(1), point (e), and Article 58(2) of Regulation (EU) No 1306/2013.
- (3) In accordance with Article 39 of Regulation (EU) No 1306/2013, the agricultural financial year begins on 16 October of year N-1 and ends on 15 October of year N. When clearing the accounts for financial year 2021, account should be taken of recognition, registration and recovery of debts by the United Kingdom between 16 October 2020 and 15 October 2021, as provided for in Article 11(1) of Commission Implementing Regulation (EU) No 908/2014 <sup>(2)</sup>.
- (4) The Commission has checked the information submitted by the United Kingdom and has communicated the results of its checks to the United Kingdom, together with the amendments it proposes.

<sup>(1)</sup> OJ L 347, 20.12.2013, p. 549.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 908/2014 of 6 August 2014 laying down rules for the application of Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, rules on checks, securities and transparency (OJ L 255, 28.8.2014, p. 59).

- (5) For the paying agencies of the United Kingdom, 'Department of Agriculture, Environment and Rural Affairs', 'The Scottish Government Rural Payments and Inspections Directorate', 'Welsh Government' and 'Rural Payments Agency', the annual accounts and the accompanying documents permit the Commission to take a decision on the completeness, accuracy and veracity of the annual accounts submitted.
- (6) Pursuant to Article 54(2) of Regulation (EU) No 1306/2013, 50 % of the financial consequences of non-recovery of irregularities should be borne by the United Kingdom, if recovery has not taken place within 4 years from the date of the recovery request, or within 8 years where the recovery is taken before the national courts. Article 54(4) of Regulation (EU) No 1306/2013 requires the United Kingdom to attach to the annual accounts that it has to submit to the Commission pursuant to Article 29 of Implementing Regulation (EU) No 908/2014 a certified table reflecting the amounts to be borne by the United Kingdom under Article 54(2) of Regulation (EU) No 1306/2013. Rules on the application of the obligation of the United Kingdom to report the amounts to be recovered are laid down in Implementing Regulation (EU) No 908/2014. Annex II to Implementing Regulation (EU) No 908/2014 sets out the model of the table that the United Kingdom has to use to provide information about amounts to be recovered. On the basis of the tables completed by the United Kingdom, the Commission should decide on the financial consequences of non-recovery of irregularities older than 4 or 8 years respectively.
- (7) Pursuant to Article 54(3) of Regulation (EU) No 1306/2013, on duly justified grounds, the United Kingdom may decide not to pursue recovery. Such a decision may be taken only if the costs already, and likely to be, incurred total more than the amount to be recovered, or if the recovery proves impossible owing to the insolvency, recorded and recognised under national law, of the debtor or the persons legally responsible for the irregularity. If the decision has been taken within 4 years from the date of the recovery request or within 8 years where the recovery is taken to the national courts, 100 % of the financial consequences of the non-recovery should be borne by the Union budget. The amounts for which the United Kingdom decided not to pursue recovery and the grounds for the decision are shown in the summary report referred to in Article 54(4) of that Regulation in conjunction with Article 102(1), first subparagraph, point (c)(iv), of that Regulation. Therefore, such amounts should not be charged to the United Kingdom and are consequently borne by the Union budget.
- (8) In accordance with Article 51 of Regulation (EU) No 1306/2013, this Decision should be without prejudice to the decisions the Commission may take subsequently to exclude from Union financing expenditure not effected in accordance with Union rules,

HAS ADOPTED THIS DECISION:

#### *Article 1*

The accounts of the paying agencies of the United Kingdom, 'Department of Agriculture, Environment and Rural Affairs', 'The Scottish Government Rural Payments and Inspections Directorate', 'Welsh Government' and 'Rural Payments Agency' are hereby cleared as regards debts arising from expenditure financed by the European Agricultural Guarantee Fund (EAGF) under the multiannual financial framework for the years 2014-2020 and previous financial perspectives, in accordance with Article 54, Article 58(1), point (e), and Article 58(2) of Regulation (EU) No 1306/2013 for financial year 2021.

The amounts recoverable from, or payable to, the United Kingdom pursuant to this Decision, including those resulting from the application of Article 54(2) of Regulation (EU) No 1306/2013, are set out in the Annex to this Decision.

#### *Article 2*

This Decision is without prejudice to future conformity clearance decisions that the Commission may take pursuant to Article 52 of Regulation (EU) No 1306/2013 to exclude from Union financing expenditure not effected in accordance with Union rules.

*Article 3*

This Decision is addressed to the United Kingdom of Great Britain and Northern Ireland.

**COMMISSION IMPLEMENTING DECISION (EU) 2022/820****of 24 May 2022****on the clearance of the accounts of the paying agencies of Member States concerning expenditure financed by the European Agricultural Guarantee Fund (EAGF) for financial year 2021***(notified under document C(2022) 3307)*

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 <sup>(1)</sup>, and in particular Article 51 thereof,

After consulting the Committee on the Agricultural Funds,

Whereas:

- (1) Pursuant to Article 51 of Regulation (EU) No 1306/2013, the Commission, on the basis of the annual accounts submitted by the Member States, accompanied by the information required for the clearance of accounts and an audit opinion regarding the completeness, accuracy and veracity of the accounts and the reports established by the certification bodies, has to clear the accounts of the paying agencies referred to in Article 7 of that Regulation prior to 31 May of the year following the budget year in question.
- (2) In accordance with Article 39 of Regulation (EU) No 1306/2013, the agricultural financial year begins on 16 October of year N-1 and ends on 15 October of year N. When clearing the accounts for financial year 2021, account should be taken of expenditure incurred by the Member States between 16 October 2020 and 15 October 2021, as provided for in Article 11(1) of Commission Implementing Regulation (EU) No 908/2014 <sup>(2)</sup>.
- (3) Article 33(2), first subparagraph, of Implementing Regulation (EU) No 908/2014 provides that the amounts that are recoverable from, or payable to, each Member State, in accordance with the accounts clearance decision referred to in Article 33(1) of that Regulation, are to be established by deducting the monthly payments for the financial year concerned from expenditure recognised for that year in accordance with Article 33(1). The Commission is to deduct that amount from or add it to the monthly payment relating to the expenditure effected in the second month following the clearance of accounts decision.
- (4) The Commission has checked the information submitted by the Member States and has communicated the results of its checks to the Member States, together with the amendments it proposes.
- (5) For certain paying agencies, the annual accounts and the accompanying documents permit the Commission to take a decision on the completeness, accuracy and veracity of the annual accounts submitted.
- (6) The information submitted by certain other paying agencies requires additional inquiries and, therefore, their accounts cannot be cleared in this Decision.

<sup>(1)</sup> OJ L 347, 20.12.2013, p. 549.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 908/2014 of 6 August 2014 laying down rules for the application of Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, rules on checks, securities and transparency (OJ L 255, 28.8.2014, p. 59).

- (7) In accordance with Article 5(5) of Commission Delegated Regulation (EU) No 907/2014 <sup>(3)</sup>, any overrun of payment deadlines is to be taken into account, at the latest, in the accounts clearance decision referred to in Article 51 of Regulation (EU) No 1306/2013. Some of the expenditure declared by certain Member States during financial year 2021 was effected after the applicable deadlines. This Decision should therefore fix the relevant reductions.
- (8) Pursuant to Article 41 of Regulation (EU) No 1306/2013, the Commission has already reduced or suspended a number of monthly payments for financial year 2021 due to failure to comply with financial ceilings, or due to control system deficiencies. In this Decision, the Commission should take into account such reduced or suspended amounts in order to avoid making any inappropriate, or untimely, payments or reimbursements which could later be subject to financial correction. The amounts in question may be examined, where appropriate, under conformity clearance proceedings pursuant to Article 52 of that Regulation.
- (9) The Commission has already reduced the relevant monthly payments for financial year 2021 for the amounts due to the European Agricultural Guarantee Fund (EAGF) as a result of financial and conformity clearance decisions, pursuant to Articles 51 and 52 of Regulation (EU) No 1306/2013, executed by the Commission in financial year 2021. Any such amounts are taken into account in this Decision.
- (10) Pursuant to Article 54(2) of Regulation (EU) No 1306/2013, 50 % of the financial consequences of non-recovery of irregularities should be borne by the Member State concerned, if recovery has not taken place within 4 years from the date of the recovery request, or within 8 years where the recovery is taken before the national courts. Article 54(4) of Regulation (EU) No 1306/2013 requires Member States to attach to the annual accounts that they have to submit to the Commission pursuant to Article 29 of Implementing Regulation (EU) No 908/2014 a certified table reflecting the amounts to be borne by them under Article 54(2) of Regulation (EU) No 1306/2013. Rules on the application of the Member States' obligation to report the amounts to be recovered are laid down in Implementing Regulation (EU) No 908/2014. Annex II to Implementing Regulation (EU) No 908/2014 sets out the model of the table that Member States have to use to provide information about amounts to be recovered. On the basis of the tables completed by the Member States, the Commission should decide on the financial consequences of non-recovery of irregularities older than 4 or 8 years respectively.
- (11) Pursuant to Article 54(3) of Regulation (EU) No 1306/2013, on duly justified grounds, Member States may decide not to pursue recovery. Such a decision may be taken only if the costs already, and likely to be, incurred total more than the amount to be recovered, or if the recovery proves impossible owing to the insolvency, recorded and recognised under national law, of the debtor or the persons legally responsible for the irregularity. If the decision has been taken within 4 years from the date of the recovery request or within 8 years where the recovery is taken to the national courts, 100 % of the financial consequences of the non-recovery should be borne by the Union budget. The amounts for which the Member State decided not to pursue recovery and the grounds for the decision are shown in the summary report referred to in Article 54(4) of that Regulation in conjunction with Article 102(1), first subparagraph, point (c)(iv), of that Regulation. Therefore, such amounts should not be charged to the Member States concerned and are consequently borne by the Union budget.
- (12) In accordance with Article 51 of Regulation (EU) No 1306/2013, this Decision should be without prejudice to the decisions the Commission may take subsequently to exclude from Union financing expenditure not effected in accordance with Union rules,

HAS ADOPTED THIS DECISION:

#### *Article 1*

The accounts of the Member States' paying agencies are hereby cleared as regards expenditure financed by the European Agricultural Guarantee Fund (EAGF) in respect of financial year 2021.

<sup>(3)</sup> Commission Delegated Regulation (EU) No 907/2014 of 11 March 2014 supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, securities and use of euro (OJ L 255, 28.8.2014, p. 18).

The amounts recoverable from, or payable to, each Member State pursuant to this Decision, including those resulting from the application of Article 54(2) of Regulation (EU) No 1306/2013, are set out in Annexes I and II to this Decision.

*Article 2*

For financial year 2021, the accounts of the Member States' paying agencies in respect of expenditure financed by the EAGF, as set out in Annex III, are not cleared by this Decision and shall be the subject of a future clearance of accounts decision.

*Article 3*

This Decision is without prejudice to future conformity clearance decisions that the Commission may take pursuant to Article 52 of Regulation (EU) No 1306/2013 to exclude from Union financing expenditure not effected in accordance with Union rules.

*Article 4*

This Decision is addressed to the Member States.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 <sup>(1)</sup>, and in particular Article 51 thereof,

After consulting the Committee on the Agricultural Funds,

Whereas:

- (1) Pursuant to Article 51 of Regulation (EU) No 1306/2013, the Commission, on the basis of the annual accounts submitted by the Member States, accompanied by the information required for the clearance of accounts and an audit opinion regarding the completeness, accuracy and veracity of the accounts and the reports established by the certification bodies, has to clear the accounts of the paying agencies referred to in Article 7 of that Regulation prior to 31 May of the year following the budget year in question.
- (2) In accordance with Article 39 of Regulation (EU) No 1306/2013, the agricultural financial year begins on 16 October of year N-1 and ends on 15 October of year N. When clearing the accounts for financial year 2021, for the purpose of aligning the reference period for the European Agricultural Fund for Rural Development (EAFRD) expenditure with that of the European Agricultural Guarantee Fund (EAGF), account should be taken of expenditure incurred by the Member States between 16 October 2020 and 15 October 2021, as provided for in Article 11(1) of Commission Implementing Regulation (EU) No 908/2014 <sup>(2)</sup>.
- (3) Article 33(2), second subparagraph, of Implementing Regulation (EU) No 908/2014 provides that the amounts that are recoverable from, or payable to, each Member State, in accordance with the accounts clearance decision referred to in Article 33(1) of that Regulation, are to be established by deducting the intermediate payments for the financial year concerned from the expenditure recognised for that year in accordance with Article 33(1). The Commission is to deduct that amount from or add it to the next intermediate payment.
- (4) The Commission has checked the information submitted by the Member States and has communicated the results of its checks to the Member States, together with the amendments it proposes.
- (5) For all paying agencies, the annual accounts and the accompanying documents permit the Commission to take a decision on the completeness, accuracy and veracity of the annual accounts submitted.

<sup>(1)</sup> OJ L 347, 20.12.2013, p. 549.

<sup>(2)</sup> Commission Implementing Regulation (EU) No 908/2014 of 6 August 2014 laying down rules for the application of Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, rules on checks, securities and transparency (OJ L 255, 28.8.2014, p. 59).

- (6) In accordance with Article 83 of Regulation (EU) No 1303/2013 of the European Parliament and of the Council <sup>(3)</sup>, the deadline for interim payments referred to in Article 36(5) of Regulation (EU) No 1306/2013 may be interrupted for a maximum period of 6 months in order to carry out additional verifications following information that these payments are linked to an irregularity having serious financial consequences. In adopting this Decision, the Commission should take into account the amounts affected by such interruption in order to avoid making any inappropriate or untimely payments.
- (7) Pursuant to Article 41 of Regulation (EU) No 1306/2013, the Commission has already reduced or suspended a number of intermediate payments for financial year 2021 due to expenditure not effected in accordance with Union rules. In this Decision, the Commission should take into account such amounts reduced or suspended on the basis of Article 41 of that Regulation, in order to avoid making any undue, or untimely, payments or reimbursements that could later be subject to financial correction.
- (8) Article 36(3), first subparagraph, point (b), of Regulation (EU) No 1306/2013 provides that intermediate payments are to be made without overrun of the total programmed EAFRD contribution. Pursuant to Article 23(2) of Implementing Regulation (EU) No 908/2014, where the combined total of declarations of expenditure exceeds the total programmed contribution for a rural development programme, the amount to be paid has to be capped at the programmed amount, without prejudice to the ceiling provided for in Article 34(2) of Regulation (EU) No 1306/2013. The capped amount will be subject to a later reimbursement by the Commission following the adoption of the amended financial plan or at the closure of the programming period.
- (9) In accordance with Article 75(1), fourth subparagraph, of Regulation (EU) No 1306/2013, the rules on payment deadlines for measures under rural development in the context of the integrated administration and control system apply from claim year 2019. The reductions for non-compliance with the latest payment deadlines, calculated in conformity with Article 5a of Commission Delegated Regulation (EU) No 907/2014 <sup>(4)</sup>, follow the procedure laid down in Articles 40 and 41 of Regulation (EU) No 1306/2013 and are to be taken into account in this Decision for financial year 2021. Those reductions may be examined, where appropriate, under conformity clearance proceedings pursuant to Article 52 of Regulation (EU) No 1306/2013.
- (10) This Decision should also take into account the additional resources referred to in Article 58a of Regulation (EU) No 1305/2013 of the European Parliament and of the Council <sup>(5)</sup>.
- (11) Pursuant to Article 54(2) of Regulation (EU) No 1306/2013, 50 % of the financial consequences of non-recovery of irregularities should be borne by the Member State concerned, if recovery has not taken place within 4 years from the date of the recovery request, or within 8 years where the recovery is taken before the national courts. Article 54(4) of Regulation (EU) No 1306/2013 requires Member States to attach to the annual accounts that they have to submit to the Commission, pursuant to Article 29 of Implementing Regulation (EU) No 908/2014, a certified table reflecting the amounts to be borne by them under Article 54(2) of Regulation (EU) No 1306/2013. Rules on the application of the Member States' obligation to report the amounts to be recovered are laid down in Implementing Regulation (EU) No 908/2014. Annex II to Implementing Regulation (EU) No 908/2014 sets out the model of the table that Member States have to use to provide information about amounts to be recovered. On the basis of the tables completed by the Member States, the Commission should decide on the financial consequences of non-recovery of irregularities older than 4 or 8 years respectively.

<sup>(3)</sup> Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

<sup>(4)</sup> Commission Delegated Regulation (EU) No 907/2014 of 11 March 2014 supplementing Regulation (EU) No 1306/2013 of the European Parliament and of the Council with regard to paying agencies and other bodies, financial management, clearance of accounts, securities and use of euro (OJ L 255, 28.8.2014, p. 18).

<sup>(5)</sup> Regulation (EU) No 1305/2013 of the European Parliament and of the Council of 17 December 2013 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD) and repealing Council Regulation (EC) No 1698/2005 (OJ L 347, 20.12.2013, p. 487).

- (12) Pursuant to Article 54(3) of Regulation (EU) No 1306/2013, on duly justified grounds, Member States may decide not to pursue recovery. Such a decision may be taken only if the costs already, and likely to be, incurred total more than the amount to be recovered, or if the recovery proves impossible owing to the insolvency recorded and recognised under national law, of the debtor or the persons legally responsible for the irregularity. If the decision has been taken within 4 years from the date of recovery request, or within 8 years where the recovery is taken before the national courts, 100 % of the financial consequences of the non-recovery should be borne by the Union budget. The amounts for which a particular Member State decided not to pursue recovery and the grounds for its decision are shown in the summary report referred to in Article 54(4) of that Regulation in conjunction with Article 102(1), first subparagraph, point(c)(iv), of that Regulation. Therefore, such amounts should not be charged to the Member States concerned and are consequently to be borne by the Union budget.
- (13) This Decision should also take into account the amounts that are still to be charged to the Member States as a result of the application of Article 54(2) of Regulation (EU) No 1306/2013 in relation to the 2007-2013 programming period for the EAFRD.
- (14) In accordance with Article 51 of Regulation (EU) No 1306/2013, this Decision should be without prejudice to the decisions the Commission may take subsequently to exclude from Union financing expenditure not effected in accordance with Union rules,

HAS ADOPTED THIS DECISION:

*Article 1*

The accounts of the Member States' paying agencies are hereby cleared as regards expenditure financed by the European Agricultural Fund for Rural Development (EAFRD), taking also into account the additional resources referred to in Article 58a of Regulation (EU) No 1305/2013, in respect of financial year 2021 and relating to the 2014-2020 programming period.

The amounts recoverable from, or payable to, each Member State under each rural development programme pursuant to this Decision, are set out in Annex I to this Decision.

*Article 2*

The amounts to be charged to the Member States, as a result of the application of Article 54(2) of Regulation (EU) No 1306/2013 relating to the 2014-2020 programming period and to the 2007-2013 programming period for the EAFRD, are set out in Annex II to this Decision.

*Article 3*

The reductions for non-compliance with the latest payment deadlines in accordance with Article 75(1) of Regulation (EU) No 1306/2013 under each rural development programme are set out in Annex III to this Decision.

*Article 4*

This Decision is without prejudice to future conformity clearance decisions that the Commission may take pursuant to Article 52 of Regulation (EU) No 1306/2013 to exclude from Union financing expenditure not effected in accordance with Union rules.

*Article 5*

This Decision is addressed to the Member States.

Done at Brussels, 24 May 2022.

## COMMISSION RECOMMENDATION (EU) 2022/822

of 18 May 2022

### on speeding up permit-granting procedures for renewable energy projects and facilitating Power Purchase Agreements

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 292 thereof,

Whereas:

- (1) Renewable energy is at the heart of the clean energy transition necessary to achieve the objectives of the European Green Deal, make energy affordable and decrease the Union's dependence on fossil fuels and energy imports.
- (2) Renewable energy has multiple benefits for the citizens of the Union: contributing to the efforts to deal with climate change, helping to protect our environment, creating growth and jobs as well as contributing to the Union's technological and industrial leadership and making the Union's economy more resilient.
- (3) The energy sector is responsible for over 75 % of the total greenhouse gas emissions in the Union. Speeding up the production of energy from the development and deployment of renewable energy installations is therefore vital for the Union to reach its 2030 renewable energy target and for contributing to reaching the 2030 Union target of at least 55 % GHG emission reductions in accordance with Regulation (EU) 2021/1119 of the European Parliament and of the Council <sup>(1)</sup>.
- (4) Rapidly increasing the share of renewable energy is crucial for addressing the problem of high energy prices. The decreased fixed costs and close-to-zero variable costs of renewable energy mean that renewable electricity costs have been more stable and lower than fossil fuel costs. The accelerated deployment of renewables will make the Union less reliant on – primarily imported – fossil fuels.
- (5) As recognised in the Communication 'REPowerEU : Joint European Action for more affordable, secure and sustainable energy' ('REPowerEU Communication') <sup>(2)</sup>, rapidly ramping up the use of renewable energy is fundamental in reducing the dependency of the Union on fossil fuels and phasing out the consumption of Russian gas. The REPowerEU plan contains measures aimed at making this happen, as does the European Semester, in the context of which country-specific recommendations on permitting tailored to individual Member States' circumstances are being proposed.
- (6) The REPowerEU Communication has also introduced a hydrogen accelerator initiative doubling the 2030 objectives for renewable hydrogen, to reduce the Union's external dependencies on fossil fuel imports. To produce 10Mt of renewable hydrogen, the Union will require additional renewable energy capacities of 80 GW by 2030.
- (7) Renewable energy projects are in principle required to receive an authorisation so that they are able to perform their intended activity. Permit-granting procedures help to ensure that the projects are safe and secure. However, the complexity, variety and excessive duration of those procedures constitutes a major barrier to the swift necessary deployment of renewable energy and to achieving a more affordable, secure and sustainable Union energy system.

<sup>(1)</sup> Regulation (EU) 2021/1119 of the European Parliament and of the Council of 30 June 2021 establishing the framework for achieving climate neutrality and amending Regulations (EC) No 401/2009 and (EU) 2018/1999 ('European Climate Law') (OJ L 243, 9.7.2021, p. 1.)

<sup>(2)</sup> Communication from the Commission to the European Parliament, the European Council, the Council, the European Economic and Social Committee and the Committee of the Regions REPowerEU: Joint European Action for more affordable, secure and sustainable energy, COM(2022) 108 final.

- (8) Delays in processing project authorisations put at risk the timely reaching of energy and climate targets and increase the cost of the projects necessary to do so. Delays can also lead to the installation of less efficient renewable energy installations due to dynamic innovation.
- (9) Those barriers were already identified in Directive 2001/77/EC of the European Parliament and of the Council <sup>(3)</sup>, which required Member States to evaluate the permit-granting procedures in order to reduce the regulatory and non-regulatory barriers to the production of renewable electricity. Directive 2009/28/EC of the European Parliament and of the Council <sup>(4)</sup> introduced requirements to simplify the administrative procedures for renewable energy developers. Directive (EU) 2018/2001 of the European Parliament and of the Council <sup>(5)</sup> strengthens these requirements. Their full and rapid transposition by all Member States is significantly helping to shorten administrative procedures and is a matter of the highest priority and urgency.
- (10) The Commission supports the Member States through the Technical Support Instrument <sup>(6)</sup>, providing tailor-made technical expertise to design and implement reforms, including those streamlining the framework for authorisation and permit-granting processes for renewable energy projects and promoting the use of corporate power purchase agreements for renewable energy. The technical support, for example, involves strengthening of administrative capacity, harmonising the legislative frameworks, and sharing of relevant best practices.
- (11) The deadlines for the permit-granting process established in Directive (EU) 2018/2001 apply without prejudice to obligations under applicable Union environmental law, to judicial appeals, remedies and other proceedings before a court or tribunal, and to alternative dispute resolution mechanisms, including complaints procedures, non-judicial appeals and remedies, and may be extended for the duration of such procedures.
- (12) The lack of public acceptance of renewable energy projects is another significant barrier to their implementation in many Member States. To address this, the needs and perspectives of citizens and societal stakeholders should be taken into account at all stages of renewable projects development – from policy development to spatial planning and project development – and good practices for ensuring just distribution of the various impacts of installations among the local population should be encouraged.
- (13) Most of the barriers related to permit-granting for renewable energy projects and the related grid infrastructure, as well as good practices to overcome them, have been identified at the Member State level.
- (14) Administrative barriers have become more relevant due to the improvements regarding other barriers, such as technology costs, which have decreased dramatically over the last ten years, or financing issues, alleviated by the cost reductions and the increasing number of corporate power purchase agreements for renewable energy.
- (15) This Recommendation addresses these concerns, calling for solutions to be found within the existing legal framework. It is without prejudice to Union law, in particular in the area of energy and environment and to the obligations arising out of it. It is also without prejudice to the Union rules on competition, in particular Articles 101, 102 and 106 of the Treaty on the Functioning of the European Union, and the Commission's decisional practice in the enforcement of the Union competition rules.
- (16) A legislative proposal to amend and strengthen the provisions of Directive (EU) 2018/2001 related to administrative procedures has been adopted alongside this Recommendation. As it is urgent to accelerate the deployment of renewable energy projects, Member States should start as soon as possible to identify suitable land and sea areas and to prepare plans for particularly suitable areas ("renewables go-to areas"), in accordance with Article 15b of the proposal for amendment to Directive (EU) 2018/2001 on permitting.

<sup>(3)</sup> Directive 2001/77/EC of the European Parliament and of the Council of 27 September 2001 on the promotion of electricity produced from renewable energy sources in the internal electricity market (OJ L 283, 27.10.2001, p. 33).

<sup>(4)</sup> Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of the use of energy from renewable sources and amending and subsequently repealing Directives 2001/77/EC and 2003/30/EC (OJ L140, 5.6.2009, p. 16).

<sup>(5)</sup> Directive (EU) 2018/2001 of the European Parliament and of the Council of 11 December 2018 on the promotion of the use of energy from renewable sources (OJ L 328, 21.12.2018, p. 82).

<sup>(6)</sup> Regulation (EU) 2021/240 of the European Parliament and of the Council of 10 February 2021 establishing a Technical Support Instrument (OJ L 57, 18.2.2021, p. 1).

- (17) Maritime Spatial Planning is a key tool for identifying future areas for the deployment of renewable energy as well as facilitating multiple uses of the maritime space, including conservation and protection of the marine environment. Member States are required by the Maritime Spatial Planning Directive <sup>(7)</sup> to have their national maritime spatial plans adopted by 31 March 2021. The Commission urges the Member States that have not yet fully implemented the MSP Directive to establish and adopt their national plan <sup>(8)</sup>.
- (18) Barriers resulting from permit procedures might also affect the future deployment of innovative decarbonisation technologies needed for climate neutrality. Setting up regulatory sandboxes, that is to say the testing, in a real-life environment, of innovative technologies, products, services or approaches, which are not fully compliant with the existing legal and regulatory framework, could support innovation and facilitate the subsequent adaptation of the regulatory environment to accommodate them.
- (19) The development of renewable energy projects partly or fully financed through corporate purchase agreements will help to accelerate the uptake of renewable energy. Corporate purchase agreements also provide direct benefits to the end-consumers, including by providing a competitive and predictable energy price and contributing to the corporate social responsibility agenda of companies in the Union.
- (20) Despite a year-on-year increase in corporate purchase agreements in the last five years, the percentage of renewable energy projects financed directly by corporate off-takers is only 15-20 % of the annual market. The uptake of corporate purchase agreements is also mainly limited to certain Member States, to electricity as an energy carrier, and to large multinational consumer-facing companies.
- (21) Along with this Recommendation, the Commission is making available digitally consolidated datasets on a wide range of relevant energy and environmental factors through the Energy and Industry Geography Lab <sup>(9)</sup> (EIGL), to help Member States for identifying renewables 'go-to areas' for the rapid deployment of new renewable energy projects. The Commission intends to develop this mapping tool further by incorporating additional datasets and links with Member States' digital spatial planning tools.

HAS ADOPTED THIS RECOMMENDATION:

#### DEFINITION

1. For the purposes of this Recommendation and the accompanying guidance, renewable energy projects are understood to encompass production plants for the generation of renewable energy as defined in the Renewable Energy Directive (including in the form of renewable hydrogen), as well as the assets needed for their grid connection and for the storage of the energy produced.

#### FASTER AND SHORTER PROCEDURES

2. Member States should ensure that the planning, construction and operation of plants for the production of energy from renewable sources, their connection to the electricity, gas and heat grid and the related grid itself and storage assets qualify for the most favourable procedure available in their planning and permit-granting procedures and are presumed as being in the overriding public interest and in the interest of public safety, in view of the legislative proposal amending and strengthening the provisions of Directive (EU) 2018/2001 related to administrative procedures and without prejudice to the Union law.
3. Member States should establish clearly defined, accelerated and as short as possible deadlines for all the steps required for the granting of permits to build and operate renewable energy projects, specifying the instances where such deadlines may be extended and under which circumstances. Member States should establish binding maximum

<sup>(7)</sup> Directive 2014/89/EU of the European Parliament and of the Council of 23 July 2014 establishing a framework for maritime spatial planning (OJ L 257, 28.8.2014, p. 135).

<sup>(8)</sup> Cf. Commission progress report on the implementation of the MSP Directive, COM(2022)185 of 3 May 2022.

<sup>(9)</sup> <https://energy-industry-geolab.jrc.ec.europa.eu/>

deadlines for all relevant stages of the environmental impact assessment procedure. The duration of the permit-granting procedures for the installation of solar energy equipment in artificial structures should be limited to a maximum of three months.

4. Member States should establish timeframes and lay down specific procedural rules with a view to ensuring the efficiency of the legal proceedings related to access to justice for renewable energy projects.
5. Member States should create a single unified application process for the entire administrative permit application and granting process. Simultaneous applications should be prioritised over sequential applications if different authorisations are required, including for related grid projects.
6. Member States should allow applicants to update the technology specifications of their projects in the time between the permit application and the construction of projects to facilitate the uptake of innovative technologies.
7. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 2 of the guidance in the Annex to this Recommendation.

#### **FACILITATING CITIZEN AND COMMUNITY PARTICIPATION**

8. Member States should stimulate the participation of citizens, including from low and middle-income households, and energy communities in renewable energy projects, as well as take measures to encourage passing the benefits of the energy transition on to local communities thus enhancing public acceptance and engagement.
9. Member States should implement simplified permit-granting procedures for renewable energy communities, including for the connection of community-owned plants to the grid and reduce to a minimum production licensing procedures and requirements, including for renewables self-consumers.
10. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Sections 5 (c) and 6 (a) of the guidance in the Annex to this Recommendation.

#### **IMPROVING INTERNAL COORDINATION**

11. Member States should ensure streamlining and effective coordination between national, regional and municipal levels regarding the roles and responsibilities of the competent authorities, as well as the applicable legislation, regulations and procedures for the authorisation of renewable energy projects.
12. Member States should design a one-stop-shop for granting permits for renewable energy projects required in Directive (EU) 2018/2001 in such a way as to limit the number of authorities involved to what is necessary and maximise efficiency, taking into account public resources and the benefits of concentrating technological, environmental and legal expertise.
13. Member States should introduce rules such that the lack of a reply from the competent authority or authorities, within the established deadlines, results in the acceptance of a given request at the relevant stage of a permit-granting procedure for renewable projects (so-called “positive administrative silence”), unless their reply is required by Union or national legislation.
14. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 3 of the guidance in the Annex to this Recommendation.

### CLEAR AND DIGITALISED PROCEDURES

15. Member States should communicate to applicants clear, complete and transparent information on all requirements and procedural stages, including complaint procedures, at the beginning of the permit-granting procedure for renewable energy projects.
16. Member States should introduce fully digital permit-granting procedures and e-communication to substitute the use of paper. Relevant information should be made available to project developers centrally as part of an online manual of procedures, including templates for applications, environmental studies and data, as well as information on options for public participation and administrative charges.
17. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 3 of the guidance in the Annex to this Recommendation.

### SUFFICIENT HUMAN RESOURCES AND SKILLS

18. Member States should ensure sufficient and adequate staffing, with relevant skills and qualifications, for their permit-granting bodies and environmental assessment authorities.
19. Member States should use the Union and national funding opportunities available for upskilling and reskilling, in particular at regional and local level, and consider setting up an Alliance for sectoral cooperation on skills to bridge the skills gap of staff working on permit-granting procedures and on environmental assessments.
20. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 4 of the guidance in the Annex to this Recommendation.

### BETTER IDENTIFICATION AND PLANNING OF LOCATIONS FOR PROJECTS

21. Member States should swiftly identify suitable land and sea areas for renewable energy projects, commensurate with their national energy and climate plans and their contribution to reaching the revised 2030 renewable energy target. As part of this mapping process, limited and clearly defined areas should be designated as particularly suitable for the development of renewable energy (renewable go-to areas), while avoiding as much as possible environmentally valuable areas and prioritising *inter alia* degraded land not usable for agriculture. For this purpose, Member States are encouraged to make use of the updated datasets available in the Energy and Industry Geography Lab <sup>(10)</sup> ('EIGL').
22. Member States should limit 'exclusion zones', where renewable energy cannot be developed, to the necessary minimum. They should provide clear and transparent information with reasoned justification on restrictions related to distance to housing and military or civil aviation zones. The restrictions should be evidence-based and designed in such a way as to fulfil their intended purpose while maximising the availability of space for the development of projects, taking into account other spatial planning constraints.
23. Member States should streamline environmental impact assessment requirements for renewable energy projects to the extent that is legally possible, applying available technical guidance on reconciling renewable energy deployment and the Union's environmental legislation, and integrating the environmental impact assessment with other applicable environmental assessments in a joint procedure. Member States should use scoping <sup>(11)</sup> in a systematic manner or make it mandatory in order to improve the quality of the environmental impact assessment process.

<sup>(10)</sup> <https://ec.europa.eu/energy-industry-geography-lab>

<sup>(11)</sup> Scoping means issuing an opinion on the scope and level of detail of the environmental information to be submitted in the form of an environmental impact assessment report.

24. Member States should ensure that the killing or disturbance of individual specimens of wild birds and protected species under Council Directive 92/43/EEC <sup>(12)</sup> is not an obstacle to the development of renewable energy projects, by requiring such projects to integrate, as appropriate, mitigation measures to effectively prevent as much as possible killing or disturbance, by monitoring their effectiveness and, in the light of the information obtained from monitoring, taking further measures as required to ensure there is no significant negative impact on the population of the species concerned. If this is done, the incidental killing or disturbance of individual specimens should not be considered deliberate and therefore should not fall under Article 12(1) of Directive 92/43/EEC nor Article 5 of Directive 2009/147/EC of the European Parliament and of the Council <sup>(13)</sup>.
25. Member States should encourage early public involvement to define spatial plans, promote the multiple use of sites and ensure transparency about where and how renewable energy projects may be built or installed, including small-scale installations at municipal level. Member States should pursue coordinated planning of grids and renewable energy generation capacities at all levels, including in the context of regional cooperation.
26. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 5 of the guidance in the Annex to this Recommendation.

#### EASIER GRID CONNECTION

27. Member States should implement long-term grid planning and investment consistent with the planned expansion of renewable energy production capacities, taking into account future demand and the objective of climate neutrality.
28. Member States should establish simplified procedures for repowering existing renewable energy plants, including streamlined procedures for environmental assessments, and adopt a simple-notification procedure for their grid connections where no significant negative environmental or social impact is expected.
29. Member States should ensure that system operators (i) apply a transparent and digital procedure for grid connection applications; (ii) provide information on grid capacities; and (iii) optimise the use of grid capacity by allowing its use by power plants combining multiple complementary technologies.
30. Member States should provide legal certainty for the repurposing of natural gas pipelines to hydrogen by clearly stating which authorisations will be required and allowing the grandfathering of their existing authorisations.
31. When implementing these recommendations, Member States should make use of the practices described in Chapter I, Section 6 of the guidance in the Annex to this Recommendation.

#### INNOVATIVE PROJECTS

32. Member States are encouraged to put in place regulatory sandboxes to grant targeted exemptions from the national, regional or local legislative or regulatory framework for innovative technologies, products, services or approaches, to facilitate permit-granting in support of the deployment and system integration of renewable energy, storage, and other decarbonisation technologies, in line with Union legislation.

<sup>(12)</sup> Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora (OJ L 206, 22.7.1992, p. 7).

<sup>(13)</sup> Directive 2009/147/EC of the European Parliament and of the Council of 30 November 2009 on the conservation of wild birds (OJ L 20, 26.1.2010, p. 7).

**FACILITATING POWER PURCHASE AGREEMENTS**

33. Member States should swiftly remove any unjustified administrative or market barriers to corporate purchase agreements of renewable energy, in particular to accelerate the uptake of corporate purchase agreements of renewable energy by small and medium-sized enterprises.
34. Member States should design, schedule and implement support schemes – and guarantees of origin – in such a way that they are compatible with, complement and enable corporate purchase agreements of renewable energy.
35. When implementing these recommendations, Member States should make use of the practices described in Chapter II of the guidance in the Annex to this Recommendation.

**MONITORING, REPORTING AND REVIEW**

36. Member States should set up a contact point tasked with regularly monitoring the main bottlenecks in the permit-granting process and addressing the issues encountered by renewable energy project developers.
37. Member States should communicate to the Commission, every two years starting in March 2023, as part of the integrated national energy and climate progress reports to be submitted pursuant to Article 17 of Regulation (EU) 2018/1999 of the European Parliament and of the Council <sup>(14)</sup>, all available detailed information on the state of implementation of this Recommendation.
38. The Commission will review the implementation of this Recommendation two years after its adoption and assess whether further measures are required, taking into account information submitted by the Member States.

## DECISION No 3/2022 OF THE EU-SINGAPORE TRADE COMMITTEE

of 19 April 2022

### amending Annexes 10-A and 10-B to the Free Trade Agreement between the European Union and the Republic of Singapore [2022/823]

THE TRADE COMMITTEE,

Having regard to the Free Trade Agreement between the European Union and the Republic of Singapore, and in particular Articles 10.17.3 and 10.18 thereof,

Whereas:

- (1) The Free Trade Agreement between the European Union and the Republic of Singapore ('the Agreement') entered into force on 21 November 2019.
- (2) Article 10.17.3 of the Agreement provides that the Trade Committee adopts a decision regarding the listing in Annex 10-B (Protected Geographical Indications) to the Agreement of the names from Annex 10-A (List of names to be applied for protection as Geographical Indications in the territory of the Parties) to the Agreement as soon as practicable after the procedures for protection of geographical indications have been concluded.
- (3) Article 10.18 of the Agreement provides that the Parties agree on the possibility of amending the list of geographical indications for wines, spirits, agricultural products and foodstuffs listed in Annex 10-B to be protected by each Party.
- (4) The Republic of Singapore completed the procedure for protection in its territory of two names ('Bardolino Superiore', 'Tiroler Speck') that were listed in Annex 10-A to the Agreement and were applied for protection as geographical indications of the Union.
- (5) The Republic of Singapore completed the procedure for protection in its territory of one name ('Saint-Emilion Grand Cru') that was not listed in Annex 10-A to the Agreement and was applied for protection as geographical indications of the Union.
- (6) According to Article 10.18 of the Agreement, and following the withdrawal of the United Kingdom from the Union as from 1 January 2021, the name 'Scotch Whisky' should be removed from the names listed in Annex 10-B of the Agreement.
- (7) The name 'Polish Cherry' is no longer protected in the Union and should be removed from Annex 10-A to the Agreement.
- (8) Consequently, Annexes 10-A and 10-B to the Agreement should be amended by listing those additional three names as protected geographical indications of the Union in Annex 10-B and removing two of those names from Annex 10-A. The names 'Scotch Whisky' and 'Polish Cherry' should also be removed respectively from Annex 10-B and Annex 10-A,

HAS ADOPTED THIS DECISION:

#### *Article 1*

Annexes 10-A and 10-B to the Free Trade Agreement between the European Union and the Republic of Singapore are replaced by the text in the Annex to this Decision.

*Article 2*

This Decision shall enter into force on the date of its adoption.
